

# Call for Papers September 2013 Issue

## Journal's Aim and Scope

-----  
The SEIJ is intended to be a primary source of research and development on software engineering and all areas of software engineering. The issue will appear in September 2013 and intends to include high quality and original research in the various disciplines of software engineering. Areas covered by the journal include:

- Software quality and metrics
- Software testing, verification and validation
- Software requirement engineering
- Software modeling, design and programming
- Software reliability, maintenance, security and evolution
- Software project management including effort estimation, cost models and schedule
- Empirical studies covering all aspects of software engineering
- Method engineering
- Software reengineering
- Component based software engineering including specification, architecture, design and verification of component models.

The journal welcomes and encourages submissions within the scope of the journal. The ideas must be important, thoroughly analyzed or empirically validated that must add value addition to software engineering research and practices.

## Types of Manuscripts

- 
- 1. Research papers:** Papers concerning original research and new ideas in the areas of software engineering

- 2. Illustrative case studies:** The research papers that illustrate and address challenges in software engineering through current literature and illustration of solution to the problem along with the results.
- 3. Practical experience reports:** The journal will seek practical experience reports from practitioners. This includes the results of the application of software techniques (methods, procedures, tools, processes) and their effectiveness.
- 4. Survey papers:** Topical surveys including detailed state-of-art and bibliography.
- 5. Short papers:** These papers must consist of new original ideas.

## Submission Information

-----  
All manuscripts should be submitted in the journal's submission format. The submission instructions must be followed given on this site. Manuscripts must not have been published previously and not currently submitted or under consideration by some other journals/conferences. **Only original research papers will be accepted for publication.** The manuscripts may vary from 15-30 pages.

## Important dates

-----  
Deadline for submission: **30 June, 2013**  
Publication of issue: Expected September, 2013
